

Plasvacc USA Lab is available on GVL for  
all your EIA needs

# Digital EIA (Coggins) Tests

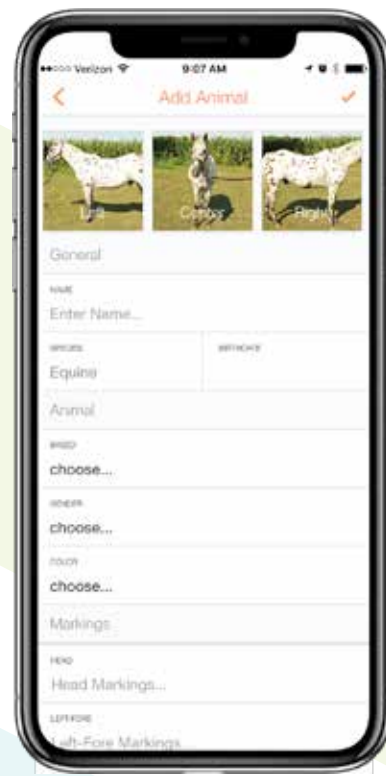

With GVL<sup>®</sup>, EIA testing is easier and faster than ever.

Digitally create and submit Equine Infectious Anemia (EIA) tests, also known as Coggins, instantly to laboratories. Share the final test certificates online with clients through their MyVetLink account.

## GVL Digital EIA (Coggins) Tests

- Mobile-friendly interface and supporting apps
- Easy digital horse photo upload
- Instantly submit to EIA labs
- Batch sign and send certificates
- Receive results in real-time

## GVL HorseSync Mobile App

- Collect horse data and photos
- Automatically sync to GVL account
- Simplify CVIs and EIA tests
- Share access with clinic staff

Available now in the App Store  
and Google Play

## The GVL platform improves productivity and reduces time spent on animal health documentation.

### MyVetLink Owner App

- Offer to clients as free value-added service
- Provides unlimited access to certificates
- Two-way messaging feature
- Look up interstate movement requirements

Available now in the App Store and Google Play

### Six-month health certificates

Extended Equine Certificate of Veterinary Inspection (EECVI) provides an easy-to-use solution for frequent horse travelers to keep moving and stay compliant with state movement regulations.

### Animal health with GVL

GVL offers digital animal health documents and certificates, including:

- Equine Infectious Anemia (EIA / Coggins) tests
- Certificates of Veterinary Inspection (CVIs)
- Veterinary prescriptions / scripts
- Veterinary Feed Directives (VFDs)
- Veterinary diagnostic results solutions

“GVL truly has changed how we handle running Coggins (EIA Tests) and doing health certificates. It is much more efficient, user friendly and simple than anything we have used in the past.”

Allison Bailey, Practice Manager,  
Royal Vista Southwest
